for all ages, sizes and activity

HORSES & PONIES

Mild to Moderate  
Joint Problems

## Super Solvitax R~A Formula

Active ingredient: **Omega 3** (12.5%)

Will help to maintain **pain-free** mobile joints.  
Ideal to help younger horses.

A nutritional feeding oil.

Will also help promote a **healthy heart and circulation**.

Helps maintain **strong bones**.

## Super Solvitax Mobility Herbal Formula

Active ingredients: **Celery Seed Lime** and **Cinnamon Bark**

A herbal blend that will help promote the blood supply to the legs and feet so will help **maintain mobility**.

Other properties will help **maintain a healthy renal system**. Excessive water retention may otherwise cause swelling or discomfort.

Guaranteed measured levels of each active ingredient.

Essential Oils of Celery Seed, Lime and Cinnamon bark carefully blended with a **highly palatable** feed and conditioning oil.

Regular supplementation will help **maintain the general good health** and comfort of the horse.

Moderate to High  
Joint Problems

## Super Solvitax Double Strength R~A Formula

Active ingredient: **Omega 3** (25%)

Contains vitamin E, an essential anti-oxidant.

Higher levels will really help to maintain pain free, supple and mobile joints in older and larger horses.

Will also help promote a healthy heart and circulation.

A nutritional feeding oil.

## Super Solvitax Projoint with Glucosamine, MSM & Chondroitin

Active ingredient: **Glucosamine, MSM and Chondroitin**

Higher levels will benefit in particular active and competitive horses from young to mature in age:

- Maintain pain-free mobile joints.
- Help to maintain and build cartilage.
- Maintain elasticity.
- Promote healthy movement in joints.
- In times of need, i.e. prior to and during competition the food level may be increased by 50%.

High  
Joint Problems

## Super Solvitax Double Strength R~A Formula combined with Super Solvitax Projoint Glucosamine, MSM & Chondroitin

Active ingredients: **Omega 3** (25%), **Glucosamine, MSM & Chondroitin**

At times, optimum levels are required, feeding both products will help:

- Maintain pain-free supple and mobile joints.
- Build new cartilage and maintain existing cartilage.
- Maintain elasticity.
- Promote healthy movement in joints.

Feeding these two products together will benefit in particular competition, working and senior horses, as well as larger horses.

**How to feed both Projoint & Double Strength R~A:**

- *Days 1-10* - feed Super Solvitax Projoint Glucosamine, MSM and Chondroitin.
- *After 10 days* - introduce Super Solvitax Double Strength R~A Formula together with Projoint.

**SENIORS & PORNIES** for all ages, sizes and activity
